**California Firm Dares To Reveal an Investment Secret That Your  
Stock Broker Doesn't Want You to Know.**

We all know that stock brokers can make a lot of money selling mutual funds. And it stands to reason that your broker wants you to do well, but also that they want to make as much money as possible; that's why they prefer to sell mutual funds that pay higher commissions: LOADED FUNDS. But is that loaded fund going to give you the best payoffs? The big question we all need to ask ourselves is:

"Can I really trust my broker to find me the best mutual funds to invest in?"

When you put your money in a mutual fund, you want ALL of your money going towards your investment.... that's what you get with NO-LOAD FUNDS. Problem is, with no-load funds, your broker doesn't get A DIME of commission. Since your broker is in the business of making their money through commissions.... and the "no-load funds" offer your broker no fee... no commission. That means that they're probably not too excited about helping you make money with a no-load fund. But -- there are a lot of good reasons why you should be interested in a no-load fund. With no-load mutual funds, here's what you get:

- \* No sales charges. When you invest with a "loaded" fund you pay fees and commissions as high as 10%!
- \* All of your money actually goes into the investment, therefore you make more money.

-- MORE --

There are more reasons.... but, these are the main reasons that you should consider no-load funds.

Ron Verner, principal owner of ADI in Lafayette CA, has now put together a list of over 350 top-rated, no-load mutual funds that will make it possible for investors to deal directly with top fund companies, and avoid the costly sales charges and commissions. These are listings and ratings that are very difficult to get all in one place.

"I decided to publish a list that investors can affordably use to put their hard-earned money to work." stated Mr. Verner. Dubbed "The Only All-In-One-Place List Of The Top 350+ No-Load Mutual Funds," Mr. Verner is selling it for \$39.95 to anyone interested. With this list any investor will be able to deal directly with the fund managers. That means no middleman broker taking out his commissions. It's a complete list of every credible no-load mutual fund in the country... over 350 of them. Including their past year track record, ranking, and their 5 year overall position and performance. All of the funds and the fund-types are totally cross-referenced so that you can locate the exact type of fund that you want. Plus the top 10 funds in each category are all ranked for you. You also get the phone number and complete contact information on each fund.

Mr. Verner is offering an unconditional 30 day money back guarantee on his product and can be contacted directly at (800) 631-7773 ext.12
