Digital Ear Escape

Slip on DAK's new designed-for-CD stereophones and escape to an audio paradise. With their 20Hz to 20,000Hz frequency range, you'll thrill to everything from tubas to piccolos with phenomenal accuracy.

By Drew Kaplan

It's a fact. Most headphones can't reproduce the incredible frequency range of digitally-encoded compact discs.

Why? Until recently, there was never any need for headphones to exceed the frequency response of records and cassettes.

But, now you can hear all the crisp, clean highs and deep, thunderous bass trapped on your CDs. And, wait till you hear your records and cassettes. The sound will rival your system's main speakers.

DAK'S DIGITAL BREAKTHROUGH

It's a breakthrough. And, it's a DAK exclusive. Jack, DAK's V.P. of Engineering, personally designed these incredible-sounding digital stereophones.

Here's the 'inside' story. First, he built over-sized high velocity mylar diaphragms into the drivers for massive pulsating bass.

Then, he used powerful Samarium Cobalt Magnets for the voice coils. So you'll hear crystal-clear highs and ultra-rich midrange.

Outside, he encased everything in closed

without annoying cord 'tugs and tangles'.

Note: I've included a FREE mini-plug adapter so you can enjoy these incredible-sounding audiophile stereophones with your personal stereo or stereo TV, too.

Plus, the lightweight, adjustable headband and cushioned ear pads are very comfortable to wear. You'll never experience the 'numb ear' syndrome ever.

DAK's DIGITAL stereo headphones are engineered by Jack and backed by DAK's standard limited warranty.
