

CAPTURED IN YOUR COMPUTER

# PC Soul Snatcher

Grab the essence of any video image from your VCR, camcorder or DAK's Video Camera and store it in RAM. Create video slide shows, posters and computer-aided graphics. And, wait till you see the images from your dot-matrix or laser printer.

By Drew Kaplan

It's fun and productive. Imagine creating video slide shows of your kids, club members or co-workers (including special effects) right on your computer.

Imagine printing computer-generated images of your family, pets or friends for greeting cards, letters and invitations.

And, imagine altering reality as you 'cut', 'paste' and 'paint' your DIGITAL images of friends, relatives and even celebrities.

Now thrill to 'real-time' (no waiting) digitized pictures you capture from your VCR, camcorder or video camera, all for \$169<sup>90</sup>.

### JUST POINT AND SHOOT

Now you can let your creativity explode on your computer's screen as you create video slide shows, eye-catching documents or wild works of art. It's incredibly easy.

A touch of a button captures (in 1/60 of a second) a video frame of your child's birthday party, a video thriller or any sporting event.

Now you can 'swap' heads with your spouse, paint antlers on your cat or colorize your own black-and-white classic. Plus, put yourself in the picture with your favorite celebrity, politician or movie star.

It's called a digitizer. And, it instantly turns your computer from a word processor into the type of display/printer you may have seen at swap meets and carnivals (and costing \$600 to \$2,000).

**Business Wonder.** Now you can instantly transfer your video image files to desktop publishing programs like Ventura Publisher, PageMaker and even WordPerfect.

You'll produce powerful technical papers and manuals complete with step-by-step photo illustrations made direct from video.

And, wait till you infuse your brochures, handbooks and newsletters with video images of your company president, your product or the Employee of the Month.

At home, I love to design personal party in-

paint hair on Grandpa, put sunglasses on your dog or paint a beard on 'Uncle Drew'.

**You can add text to your graphics with a variety of type styles and sizes.**

Plus, you can also draw freehand, create circles and squares, erase parts of your pictures, draw backgrounds and foregrounds or shrink or enlarge noses, ears and eyes.

**3. PC Partner.** Now, take a 'snapshot' of your captured images and create attention-grabbing PC slide shows for business meetings, school assemblies or seminars.

Add special effects to your slide show as you 'dissolve' your images from one screen to the next. Or, you can 'wipe', 'drip', or 'weave' between images. It's easy.

Plus, with PC Partner's SHOW module, you can save dozens of images on a single disk to carry with you to display on any
